

ERRATA

In the editorial of the November 2009 issue of the Journal and in the errata of the March 2010 issue, it was erroneously stated that the masters in orthopaedic surgery started in 1992 and 1982 respectively.

The masters programme in orthopaedics first started in 1981 in Universiti Kebangsaan Malaysia. This was followed by the University of Malaya in 1990 and Universiti Sains Malaysia in 1991(1).
